

# La Strada

## Early Maincrop

(Cosmos x Osprey)

### Consumer quality

La Strada is an early maincrop variety producing very high yields of bold and bright tubers. La Strada has an average dry matter and a pleasant taste and texture.

### Agronomic features

La Strada produces high yields early in the season (95-105 days). In early baker trials La Strada out yielded Marfona (130%). When grown as a maincrop La Strada yielded 145% of Estima crops. La Strada flourishes in hot climates consistently out-performing other varieties in its class.

### Tuber characteristics

<b>Market Sector</b>	<b>B/T</b>	Shape of tuber	RO
Maturity	2	Depth of eyes	2
